INTELLIGENT TECHNOLOGY. | POWERFUL RESULTS. | VISIBLE TRANSFORMATION.

RADIANT VITALYX™

Intelligent HIFEM Body Sculpting Technology

Experience the next generation of non-invasive muscle sculpting and body contouring with Radiant VITALYX™, an advanced HIFEM (High-Intensity Focused Electromagnetic) technology system designed to strengthen, tone, and redefine the body through powerful supramaximal muscle contractions.

Engineered for performance, comfort, and versatility, Radiant VITALYX™ delivers exceptional body sculpting results while supporting muscle conditioning, core activation, and aesthetic enhancement across multiple treatment areas.

HIFEM TECHNOLOGY

High-Intensity Focused Electromagnetic energy delivers supramaximal muscle contractions beyond voluntary exercise.

BUILD MUSCLE & TONE

Strengthens, tones, and sculpts muscles for a more defined, athletic appearance.

NON-INVASIVE & COMFORTABLE

No surgery, no downtime. Enjoy a comfortable treatment with no recovery time.

PRECISE & TARGETED

Treats specific muscle groups with precision for optimal, visible results.

HOW IT WORKS

Radiant VITALYX™ uses HIFEM technology to deliver intense electromagnetic pulses that penetrate deep into the muscle tissue, inducing powerful supramaximal contractions. These contractions are not achievable through voluntary exercise, leading to muscle fiber growth, increased tone, and improved strength.

TREATMENT AREAS

ABDOMEN | BUTTOCKS | ARMS | THIGHS | CALVES

Multiple applicator options for customized treatments across various body areas.

KEY BENEFITS

- Builds lean muscle and increases strength
- Improves muscle tone and definition
- Enhances core strength and stability
- Supports fat reduction and body contouring
- Boosts metabolism and overall fitness
- Safe, effective, and suitable for all fitness levels

INTELLIGENT CONTROL SYSTEM

Smart energy delivery with real-time monitoring for optimal performance and safety.

MULTI-MODE TREATMENTS

Adjustable intensity levels and modes to meet diverse treatment goals and client needs.

ERGONOMIC APPLICATORS

Designed for maximum comfort, efficiency, and consistent energy distribution.

SAFE & RELIABLE

Clinically tested technology with built-in safety features for peace of mind.

VISIBLE RESULTS, FATTER

Noticeable improvements in muscle tone and body contouring in as few as 4 treatments.

SCULPT. STRENGTHEN. TRANSFORM. RADIANT VITALYX™

EMPOWERING BODIES. ELEVATING CONFIDENCE.

NO SURGERY | NO DOWNTIME | REAL RESULTS

Key Features

- Advanced HIFEM Technology
- Intelligent & Expert Treatment Modes
- Soft-Touch Interactive Display
- Simultaneous Multi-Area Treatments
- Non-Invasive Body Sculpting
- No Downtime
- Supports 24-Hour Continuous Operation
- Ergonomic Applicator Design
- Fast 30-Minute Treatments

2.9 Tesla
output per handle

≈12 Tesla
total output with 4 handles

1–150 Hz
adjustable frequency

30 Minutes
treatment duration

24-Hour
continuous operation

INTELLIGENT MODE™

Designed for first-time users and comfort-focused treatments. The system automatically adjusts intensity and frequency for a guided, user-friendly experience.

EXPERT MODE™

Gives trained professionals full control over all treatment parameters, intensity, pulse frequency, and protocol customization for advanced sculpting programs.

TREATMENT AREAS

Radiant VITALYX™ is designed to support sculpting and toning of:

4 HANDLES. MORE POSSIBILITIES.

Radiant VITALYX™ comes with 4 specialized applicators to fit different body curves and treatment needs.

2 Flat Applicators
for Abdomen & Buttocks

2 Curved Applicators
for Arms, Thighs & Calves

2-HANDLE OPERATION
Target two areas at the same time

4-HANDLE SIMULTANEOUS OPERATION
Treat four areas in a single session

The Future of
Intelligent Body Sculpting

Radiant VITALYX™ combines intelligent software, advanced HIFEM engineering, and luxury aesthetic technology into one powerful platform designed for modern medical aesthetic clinics, wellness centers, and body contouring professionals.

Strength. Tone. Definition. Evolution.

RADIANT VITALYX™
HIFEM TECHNOLOGY

Simultaneous **Multi-Handle** Technology

Radiant VITALYX™ supports:

- 2-handle operation
- 4-handle simultaneous operation

This advanced capability allows practitioners to treat multiple body areas during the same session, improving efficiency and reducing overall treatment time.

Powerful **HIFEM** Performance

- **2.9 Tesla** output per handle
- **Approximately 12 Tesla** total output using 4 applicators simultaneously
- **Adjustable frequencies** from **1–150 Hz**
- **30-minute** treatment sessions
- Designed for **high-performance continuous operation**

The powerful electromagnetic stimulation system helps activate deep muscle layers for comprehensive body conditioning and contouring support.

Expert Mode™

Expert Mode™ gives trained professionals full control over treatment parameters, intensity, pulse frequency, and protocol customization for advanced sculpting programs.

IDEAL FOR:

- Customized body sculpting protocols
- Athletic conditioning
- Advanced aesthetic treatments
- High-performance muscle activation

Total control. Maximum precision.
Deliver advanced results with Expert Mode™.

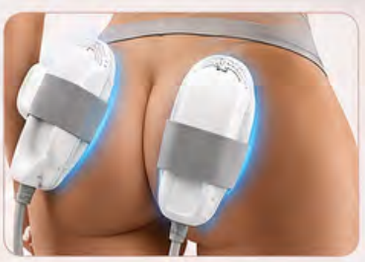
Multi-Area Sculpting System

Radiant VITALYX™ includes 4 specialized applicators designed to comfortably adapt to multiple body zones:

Flat Applicators

Designed for:

- Abdomen
- Buttocks



Curved Applicators

Designed for:

- Arms
- Thighs
- Calves

The ergonomic applicators allow for comfortable positioning while maximizing treatment precision and energy delivery.

What Is Radiant VITALYX™?

Radiant VITALYX™ uses advanced HIFEM technology to stimulate deep muscle contractions that cannot be achieved through voluntary exercise alone. These intense contractions help engage muscle fibers, support muscle development, and assist in improving overall body tone and contour.

NON-INVASIVE
Completely non-invasive with no surgery, needles, or discomfort.

NO DOWNTIME
Requires no downtime—get back to your day immediately.

The treatment is completely non-invasive, requires no downtime, and is designed for clients seeking enhanced definition, strengthening, and body sculpting support.

ADVANCED

Dual-Mode Technology

Intelligent Mode™

Designed for first-time users and comfort-focused treatments, Intelligent Mode™ automatically calibrates treatment intensity and frequency for a guided, user-friendly experience.

PERFECT FOR:

- New clients
- Wellness-focused sessions
- Gentle progressive conditioning
- Personalized comfort optimization

Smart. Simple. Effective.

Intelligent Mode™ takes the guesswork out of body sculpting—so clients can focus on results and comfort.
