MEET THE

RADIANT PHOENIX™ CO_2 LASER

ADVANCED FRACTIONAL CO_2 FOR VISIBLE, LASTING RESULTS

The Radiant Phoenix CO_2 Laser is a state-of-the-art fractional ablative CO_2 platform designed for advanced skin resurfacing, rejuvenation, collagen remodeling and intimate wellness applications.

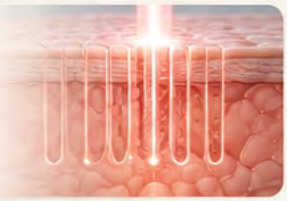
Using precise 10,600 nm CO_2 laser energy, the Phoenix delivers controlled fractional treatment zones to stimulate the skin's natural healing response — revealing smoother, firmer, healthier-looking skin with long-lasting results.

10,600 nm CO_2 TECHNOLOGY

Proven fractional ablative technology for precise and effective skin treatment.

FRACTIONAL RESURFACING

Creates controlled microthermal zones to stimulate natural collagen remodeling and renewal.



CUSTOMIZABLE TREATMENT DELIVERY

Adjustable parameters, scan shapes and treatment patterns for personalized results.

MULTI-APPLICATION PLATFORM

Versatile system for facial rejuvenation, scar revision, skin tightening and intimate wellness applications.

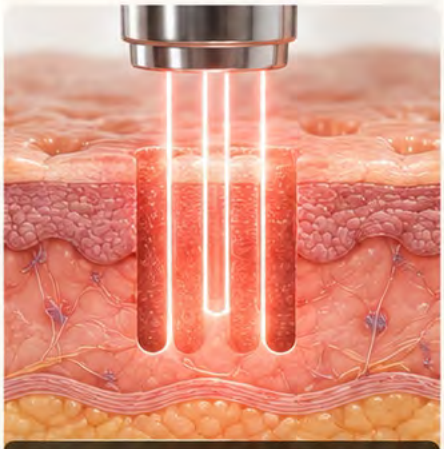
HOW FRACTIONAL CO_2 WORKS

PRECISION SCIENCE. NATURAL RENEWAL.

The Radiant Phoenix uses fractional CO_2 laser technology to create microscopic treatment zones in the skin, while leaving the surrounding tissue untreated. This controlled approach stimulates the skin's natural healing response, leading to collagen remodeling and visible, long-term improvement.

1 PRECISION ENERGY

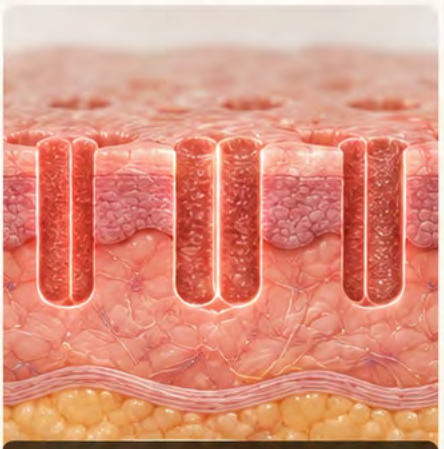
The CO_2 laser delivers highly controlled 10,600 nm energy in fractional microbeams.



TARGETED MICROBEAMS

2 CONTROLLED FRACTIONAL TREATMENT

Microscopic treatment zones are created, surrounded by untreated tissue to support faster healing.



FRACTIONAL TREATMENT ZONES

3 REMODELING & RENEWAL

The body's natural healing response stimulates new collagen and elastin, revealing smoother, firmer, healthier skin.

COLLAGEN REMODELING

THE FRACTIONAL ADVANTAGE

- PRECISE TREATMENT
- CONTROLLED RECOVERY
- NATURAL COLLAGEN STIMULATION
- VISIBLE, LONG-LASTING RESULTS

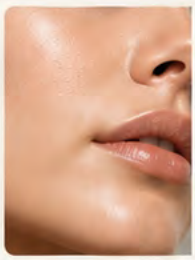
VISIBLE RENEWAL
REAL CONFIDENCE

SKIN RESURFACING & REJUVENATION

VERSATILE TREATMENTS. TRANSFORMATIVE RESULTS.

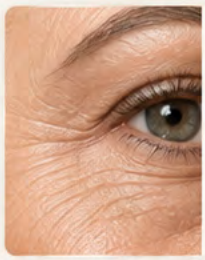
The Radiant Phoenix CO_2 Laser helps you address a wide range of skin concerns with precision, promoting smoother, firmer, clearer and younger-looking skin.

HEALTHIER SKIN TODAY. A MORE CONFIDENT TOMORROW.



SKIN RESURFACING

Smoother, brighter and more even skin.



FINE LINES & WRINKLES

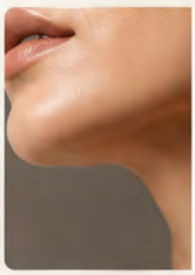
Reduces the appearance of lines and wrinkles.

ACNE & SURGICAL SCARS

Improves the appearance of scars and uneven texture.

STRETCH MARKS

Helps improve the appearance of stretch marks.



SKIN TIGHTENING

Supports firmer, more lifted-looking skin.

PIGMENTATION / SUN DAMAGE

Targets uneven tone and sun damage for a clearer complexion.

ENLARGED PORES

Refines skin texture and minimizes the appearance of pores.

TEXTURE REFINEMENT

Improves overall skin tone and texture for a smoother finish.

PRECISION MEETS VERSATILITY

ADVANCED CONTROL. CUSTOMIZABLE RESULTS.

The Radiant Phoenix features an intuitive, easy-to-use interface with multiple treatment modes, versatile scan shapes and adjustable parameters — giving you the control to deliver personalized treatments for a wide range of clinical applications.

INTUITIVE TOUCHSCREEN INTERFACE

MULTIPLE TREATMENT MODES

Choose the ideal mode for each indication and skin condition.

SEVEN SCAN SHAPES

Versatile patterns for customized treatment coverage.

THREE SCANNING MODES

Adapt to different treatment areas and clinical goals.

ADJUSTABLE TREATMENT PATTERNS

Fine-tune energy, density and spacing for precise results.

7 SCAN SHAPES

FLEXIBLE PATTERNS FOR EVERY TREATMENT AREA

SQUARE · RECTANGLE · CIRCLE · ELLIPSE · LINE · TRIANGLE · HEXAGON

3 SCANNING MODES

TAILOR YOUR APPROACH FOR OPTIMAL TRESULTS

NORMAL

Even coverage for consistent treatment.

REPEAT

Multiple passes in the same area for enhanced results.

RANDOM

Non-sequential delivery for a more uniform, natural outcome.

PRECISION IN EVERY DETAIL

CUSTOMIZE. TREAT. TRANSFORM.

FRACTIONAL TREATMENT TECHNOLOGY

CONTROLLED ABLATION. NATURAL RENEWAL.

The Radiant Phoenix uses fractional CO_2 laser technology to create microscopic treatment zones, removing columns of damaged tissue while leaving surrounding tissue intact. This controlled approach triggers the skin's natural healing response, resulting in new collagen formation, resurfacing and long-term improvement in skin tone, texture and firmness.

1 CONTROLLED ABLATION

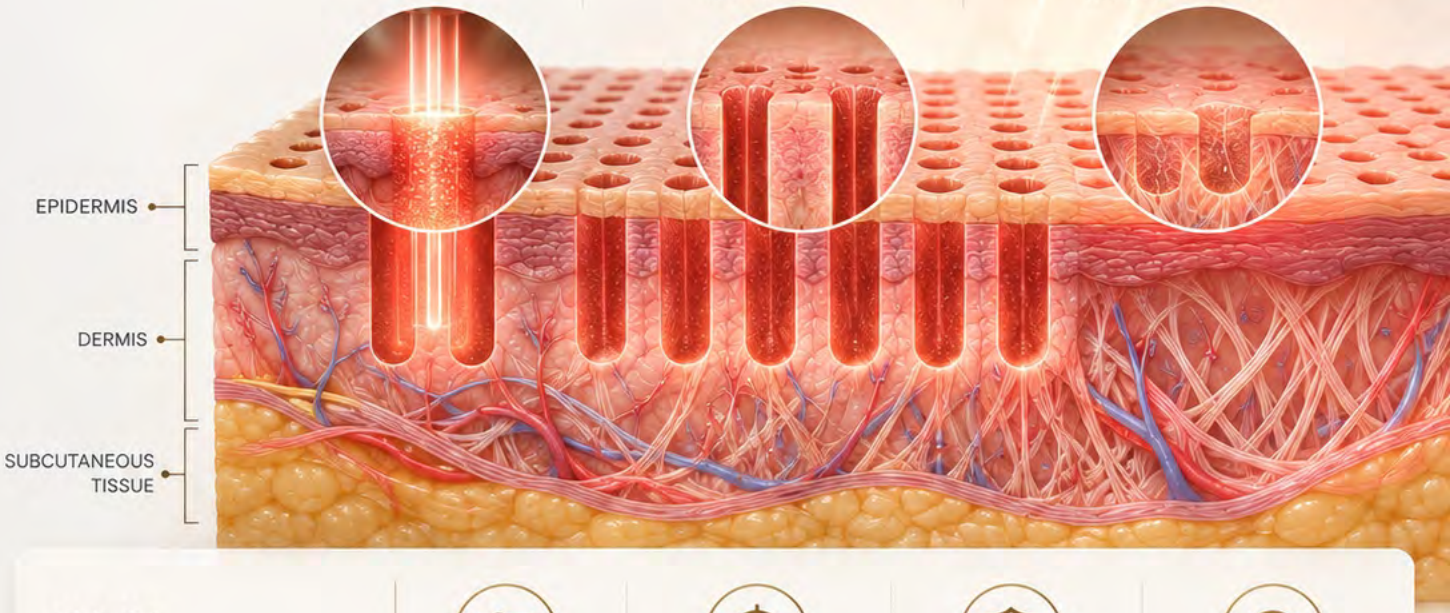
Fractional CO_2 energy creates microscopic treatment zones.

2 RESURFACING

Damaged tissue is removed in a precise fractional pattern, while surrounding tissue remains untreated.

3 COLLAGEN REMODELING & RENEWAL

The skin's natural healing response stimulates new collagen and elastin for smoother, firmer, healthier skin.



WHY FRACTIONAL?

ADVANCED TECHNOLOGY FOR OPTIMAL RESULTS.

CUSTOMIZABLE COVERAGE

Adjustable density and treatment area for personalized results.

PRECISION TREATMENT PATTERNS

Controlled delivery with multiple scan shapes and modes.

CONTROLLED TREATMENT AREAS

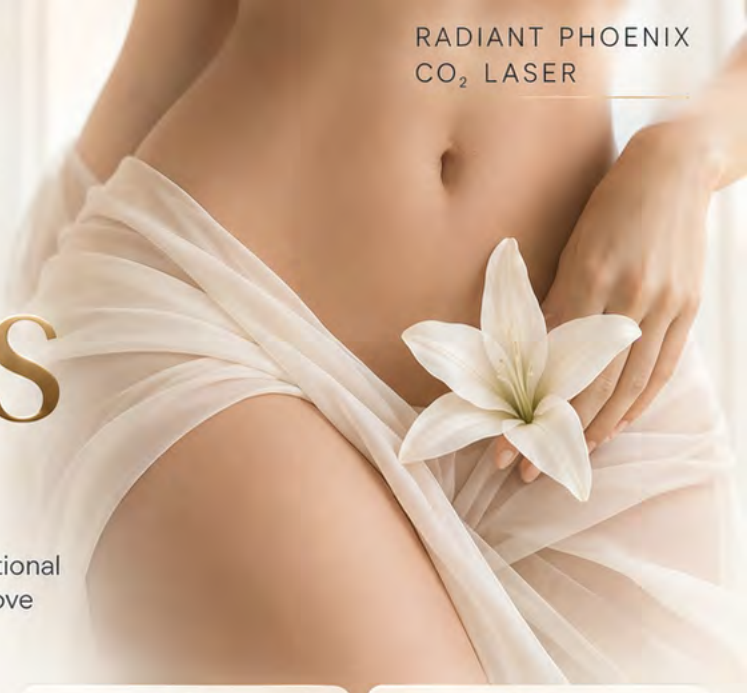
Treats targeted zones while preserving surrounding healthy tissue.

FLEXIBLE CLINICAL APPLICATION

Adaptable for facial, body and intimate wellness treatments.

CONFIDENCE. COMFORT. WELLNESS.

INTIMATE WELLNESS APPLICATIONS



The Radiant Phoenix CO_2 Laser offers advanced fractional technology for intimate rejuvenation, helping to improve tissue quality and support overall intimate wellness.

INTIMATE REJUVENATION

Supports improved tissue tone and quality.

VAGINAL TIGHTENING

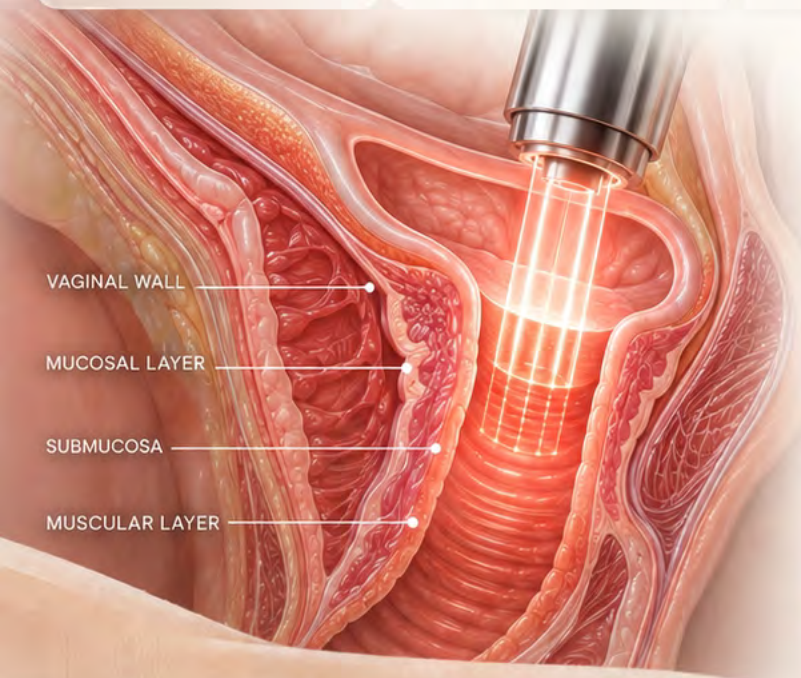
Helps enhance tissue firmness and elasticity.

VAGINAL RESURFACING

Promotes a healthier-looking and more refined tissue surface.

OVERALL WELLNESS SUPPORT

May help address common changes associated with aging, hormonal shifts and post-delivery.



HOW IT WORKS

1 FRACTIONAL ENERGY

Delivers precise CO_2 laser energy in controlled micro-treatment zones.

2 STIMULATES NATURAL RESPONSE

Encourages collagen production and improved tissue remodeling while preserving surrounding tissue.

3 IMPROVED TISSUE QUALITY

Supports firmer, healthier-looking tissue with enhanced elasticity and comfort.

TREATMENT HANDPIECES & APPLICATIONS

VERSATILE TO MEET A WIDE RANGE OF CLINICAL NEEDS.

The Radiant Phoenix offers a variety of handpieces designed for precise, efficient and flexible treatments across facial, intimate and surgical applications.

1 FRACTIONAL FACIAL TREATMENT

Fractional handpiece designed for precise skin resurfacing and rejuvenation.

2 VAGINAL TREATMENT

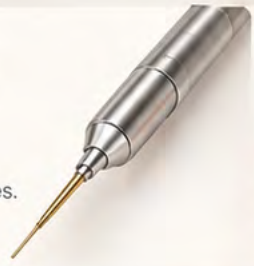
Specialized handpiece for intimate rejuvenation and vaginal tightening and resurfacing.

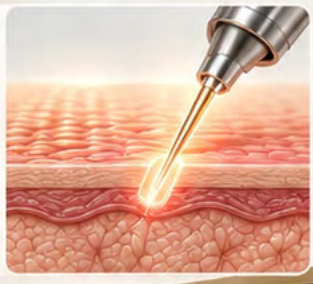
3 VULVAR TREATMENT

Dedicated handpiece designed for external intimate treatments.

4 CO_2 SURGICAL USE

Surgical handpiece for precise cutting, excision, coagulation and soft-tissue procedures.





SYSTEM & KEY FEATURES

POWER. PRECISION. VERSATILITY.

The Radiant Phoenix combines advanced fractional CO_2 laser technology with an intuitive, user-friendly design to deliver precise, customizable treatments across a wide range of clinical applications.

1 10,600 nm CO_2 LASER
Proven wavelength for precise ablation, resurfacing and tissue remodeling.

2 FRACTIONAL SCANNER
Advanced scanning technology for controlled, consistent treatment patterns.

3 MULTIPLE SCAN PATTERNS
Seven scan shapes with adjustable density and spacing to customize every treatment.

4 ADJUSTABLE PARAMETERS
Tailor energy, dwell time, spacing and more for optimal results and different treatment areas.

5 INTUITIVE TOUCHSCREEN INTERFACE
Easy-to-use controls with pre-programmed settings and real-time adjustments.

6 MOBILE CLINICAL PLATFORM
Sleek, compact and stable design for modern clinical environments.

7 MULTIPLE APPLICATION HANDPIECES
Specialized handpieces for facial, intimate and surgical applications.

SCIENCE TODAY.
A BRIGHTER TOMORROW.

WHY RADIANT PHOENIX

MORE THAN A LASER.
A HIGHER STANDARD.

The Radiant Phoenix CO_2 Laser combines trusted fractional technology with versatile applications to help you deliver exceptional results and greater possibilities for your practice.

ADVANCED SKIN RESURFACING
Improve skin tone, texture and overall appearance.

SCAR & TEXTURE CORRECTION
Help reduce the appearance of acne scars, surgical scars and other textural concerns.

COLLAGEN REMODELING
Stimulate the skin's natural healing process for firmer, healthier-looking skin.

INTIMATE WELLNESS APPLICATIONS
Support intimate rejuvenation with non-surgical, minimally invasive treatments.

MULTI-FUNCTIONAL CO_2 PLATFORM
One system. A wide range of clinical possibilities.
